Select Deep-Sea Salmon Meat Specially Made Super Large Cubes Return to Carnivorous Nature

Cats and dogs prefer meat inherently. In ancient time, quickly hunting in long distance take away lots of energy. Therefore, they preferred to have meat and took some fruits and vegetables as nutritional supplement to satisfy their body.

Kitchen Flavor Grain Free series select various premium meat and delicious vegetables to delight and energize picky cats and dogs.

Rich Ingredients with High Palatability

Deep-Sea Fish rich in ω -3 & ω -6 unsaturated fatty acids.

Chicken delicious and rich in quality protein.

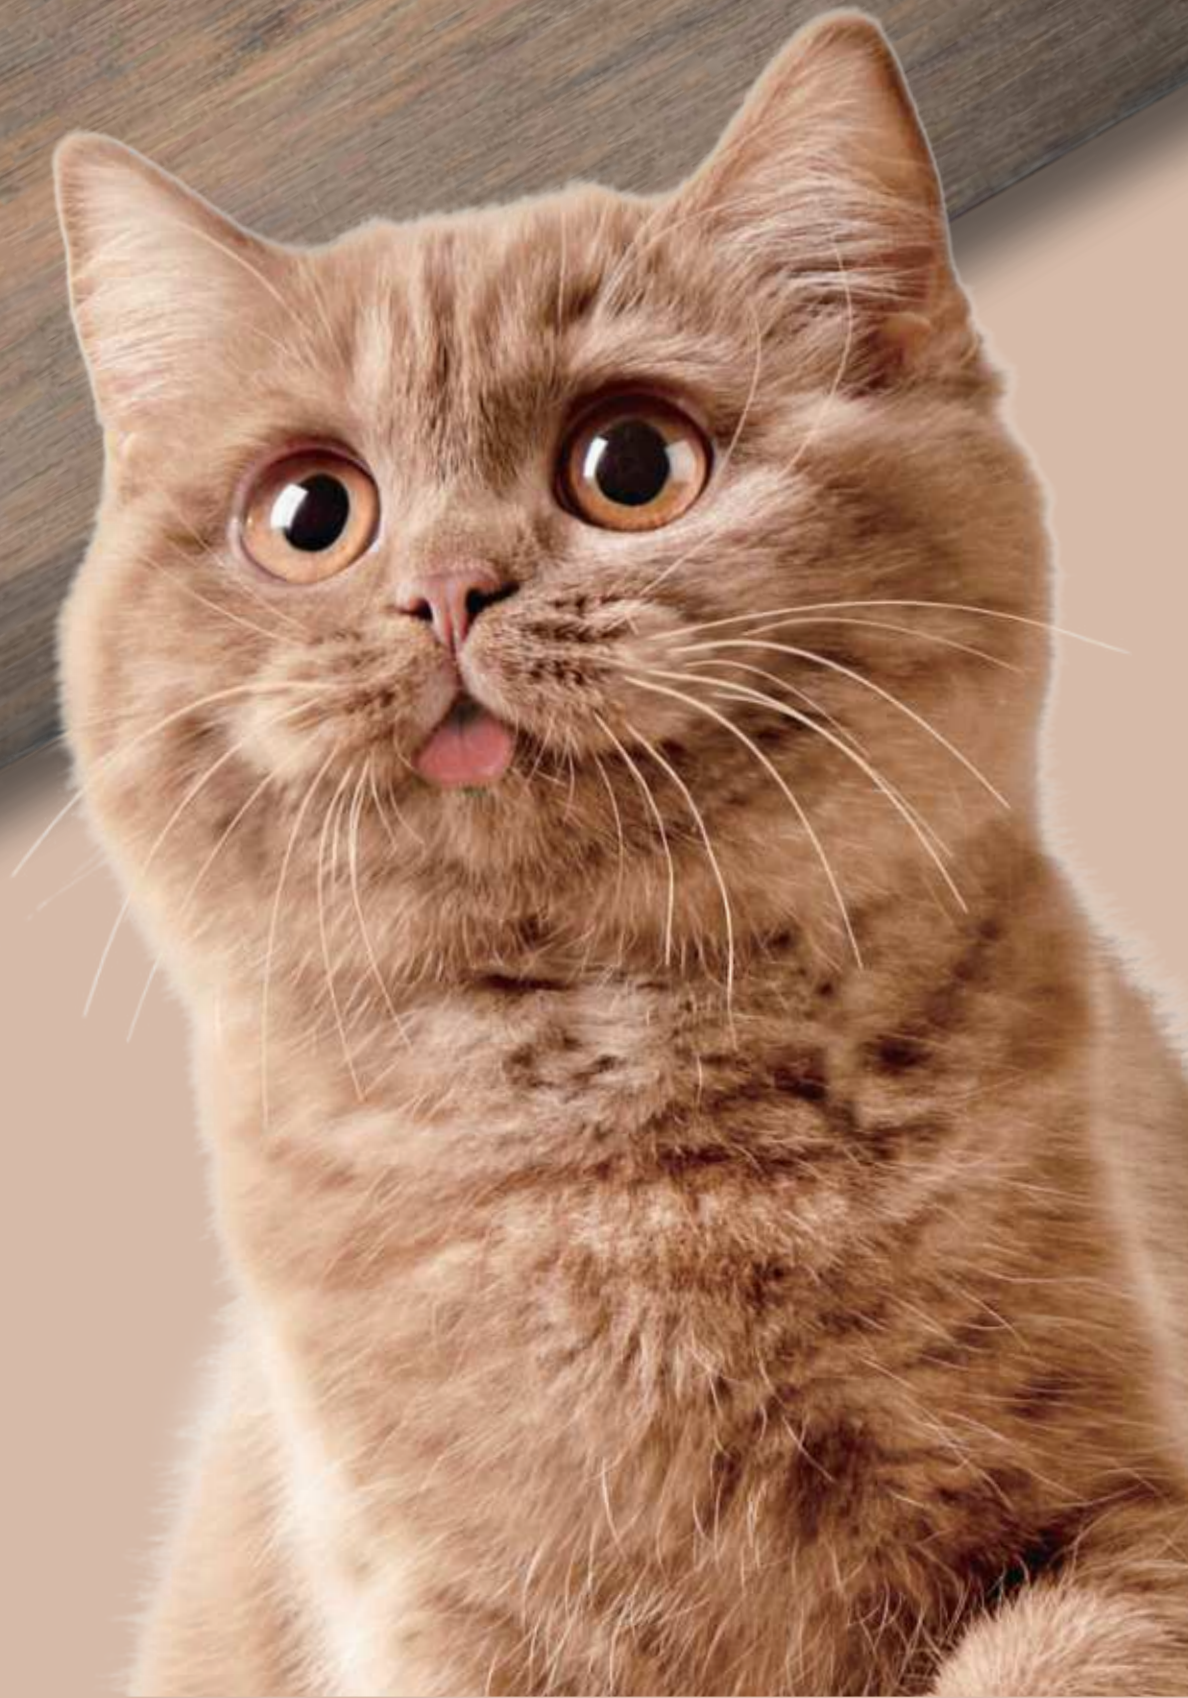

Pea rich in necessary amino acids.

Potato Vitamin A, carotene, Vitamin C.

Sweet Potato rich in dietary fiber.

Low Sensitivity Ingredients

Researches have shown that food-borne allergy can lead to skin and stomach illnesses such as skin itch, emesis, and diarrhea.

Kitchen Flavor Grain Free series refuse the following common allergic ingredients and reduce risk for allergies to provide a feast for pets and let owners comfortable.

NO GRAIN

NO DAIRY

NO GLUTEN

NO SOYBEAN

Nutrition for Skin & Fur

Fish contain unsaturated fatty acids ω -3 and ω -6.

Hair Ball Control

Alfalfa is rich in vegetable fiber, improves hairball movement.

Brighten the Eyes

The carotene in the sweet potato together with taurine, Vitamin-A and some other nutrients.

Instructions (Feed to cat only)

(1) Feeding guide(grams /day)

Weight	Normal Activity	High Activity
2-3KG	50-55	60-65
3-4KG	60-70	70-80
4-5KG	75-85	85-95
5-6KG	90-100	100-110
>6KG	105-115	115-125

Recommended daily feeding amount is for reference only. Please feed your pet according to its body condition and activity level.

(2) RECOMMENDED FEEDING METHOD

- Feed it as recommended daily feeding amount, let the cat eat freely.
- It provides complete and balanced nutrition for your cat.
- Feeding amount will vary, depending on your cat's health, age, activity level, season and environment.
- Fresh water should be available for your cat at all times.

(3)RECOMMENDED TRANSITION METHOD

Switching to new pet food is sensitive to digestive tract of cat. A smooth transition method can adjust the enzymes in cat's digestive tract naturally. And it is easier to digest and absorb the new food and its nutritional composition.

To enable a smooth transition to new food, please mix new product with old product-gradually increasing the amount of new product-over a period of 7 days until only new product is fed.

BRAND STORY

“**Happy Eating**” is the original intention behind our brand and the culinary atmosphere we have always maintained for pets and pet owners. KitchenFlavor passionately embody this philosophy by meticulously crafting every meal to be a delightful feast, with visible real meat cubes and vegetable kibbles.

From wilderness to forest, from grassland to deep sea. KitchenFlavor never stops the quest for delicacy. Pure, Nature, Delicious, Juicy, Nutritious, Healthy. There's always proper food from KitchenFlavor natural recipe for your furry companions.

What is your pet's **Favorite Flavor**?

We are now trying our best to fulfill it in

PRODUCT QUALITY TRACEABILITY SYSTEM

Retain samples for each batch of products to observe and monitor the quality. For dry food, the sampling interval has reached **1 hour/batch**, and the storage period is **20 months** which is much higher than the national and industry standards. For wet food, each pot will be sampled and stored, and the storage period is **26 months**.

CERTIFICATIONS

Since its establishment in 2002, Bridge PetCare has consistently prioritized quality, obtaining certifications from various international authoritative organizations including **ISO9001**, **ISO22000**, **BRC**, **GMPHACCP** and so on.
